Gender Demographics

Percentage of Married Members

Observations/Recommendations

Observations

1. There is a significant gender imbalance, with females outnumbering males.
2. A large majority of the members are single.
3. Most service group members fall within the 18–25 and 26–35 age brackets.
4. A significant number of members do not belong to any service unit.
6. A large number of members do not belong to any MAP Group.
7. The Follow-up Unit has the highest number of members among all service groups.
8. Most members reside in Mararaba, Karu, Nyanya, Jikwoyi/Kurudu, Masaka/Ado & Asokoro.
9. The Mararaba MAP group has the largest number of members

Recommendations

1. Introduce targeted outreach initiatives such as Men's Hangouts, sports activities, hiking trips, and mentorship programs to foster male engagement and overall community bonding.
2. Organize quarterly skill discovery events to encourage members to identify their talents and sign up for relevant service units.
3. Plan regular hangouts and evangelism activities specifically targeting key areas such as Jikwoyi, Asokoro, and Nyanya to expand reach and membership.
4. Launch inter-MAP competitions (e.g., sports, debates, Bible quizzes) to strengthen inter-group relationships, promote healthy competition, and drive engagement.
